

Geoscience for central Vancouver Island communities

Will Durant

The petroglyph of the semiaquatic seawolf etched into sandstone near Nanaimo emphasizes the connection between land and sea integral to coastal cultures.

The book cover for "Geoscapes Nanaimo" features a photograph of a coastal landscape. The top portion of the image shows a sandy beach transitioning into a rocky shoreline with some sparse vegetation. The water is visible in the foreground, and the sky is overcast. The title "Geoscapes Nanaimo" is printed in a large, bold, black sans-serif font across the middle of the cover. Below the title, the authors' names are listed in a smaller font. The cover also includes the Canadian flag, the Geological Survey of Canada logo, and the title in French. The publisher's logo, "NATIONAL RESEARCH COUNCIL OF CANADA", is in the bottom right corner.

Geoscapes Nanaimo
 Geological Survey of Canada, Miscellaneous Report 87, 2005
 Authors: K.M. McCall, R.J.W. Turner, R.D. Franklin, S. Evans, T. Stokes, D. Pawlik, J. Houde, R. Guthrie, J. Fox, and J. Czapka
